SENEC
Your Life. Your Energy.

There is a worldwide movement towards electrifying your home.

Globally, Australia has the highest uptake of solar with more than 3 million+ rooftop solar systems installed and 30% of homes with solar.

The SENE.C360 suite of products and services allows you to completely utilise your solar energy to provide complete energy and mobility self-sufficiency. That's the SENE.C Electrifying Lifestyle.

With the complete SENE.C360 solution, you not only gain financial savings, but energy independence and environmental protection as well.

360° Solutions

With SENE.C you can obtain, all the accessories you need in one place, to achieve up to 100% self-sufficiency utilising;

- SENE.C.Home V3 Hybrid - hybrid battery storage system with integrated solar inverter (20-year extended warranty available)
- SENE.C.EVcharger - Electric Vehicle (EV) charger
- SENE.C.Solar - Solar modules (coming soon)
- SENE.C.Cloud - Cloud virtual energy storage
- SENE.C.App – the heart of our SENE.C360 eco-system

SENE.C
.360

100% | Freedom
100% | Flexibility
100% | Self-Sufficiency

360° Integration

All SENE.C products are perfectly integrated with one another using the SENE.C.App. Make the most of your self-generated solar energy, optimizing your cost savings to achieve up to 100% self-sufficiency.

360° Value Promise

We're on a mission to provide our customers with the best experience possible. We listen, we explore, we support. We act and get results as partners.

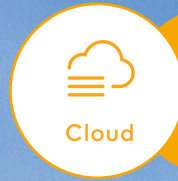

Home

Store the energy you don't use for later use

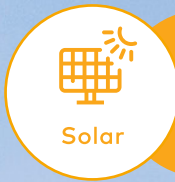

EVcharger

Power your electric vehicle

Cloud

Virtually store up to 100% of your exported energy in the Cloud

Solar

Harness energy from the sun

The Electrifying Lifestyle

SENEC.Home V3 Hybrid storage system

Use your energy, even at night

20 YEARS EXTENDED WARRANTY AVAILABLE.

100% | German quality
100% | Safety

Maximum flexibility

Can be connected AC or DC coupled. SENE hybrid storage systems can be combined with any PV system, both new and existing. The modular design allows you to increase your storage capacity for when you need to upgrade.

Maximum Guarantee

The battery system has a 20-Year extendable warranty (the first ten years are on us) making it the one of the best warranties available on the market.

Maximum efficiency

The 2-in-1 battery system (storage + solar inverter) and integrated control system guarantees the highest levels of performance with 2 x MPPT circuits with a high current rating of 23A Isc and inverter efficiency of 97.4%.

Maximum simplicity

Everything is simple with our systems: from installation, which can be carried out in a few hours with minimal hassle, to monitoring via the app and remote assistance for your peace of mind.

Maximum safety

The overvoltage protection ensures maximum safety of both the system and storage, in case the solar panels are struck by lightning. The optional back-up system ensures the availability of electricity even in the event of a black-out.

SENEC.EVcharger

Power your vehicle

SOLUTION FOR ALL

100% | Safety
100% | Intelligence

Maximum flexibility

The SENE.EVcharger adapts to all needs: single-phase and three-phase connection and different charging powers (7.2 - 22 kW).

Maximum safety

All the protections on the direct current side are integrated as standard in order to guarantee maximum safety.

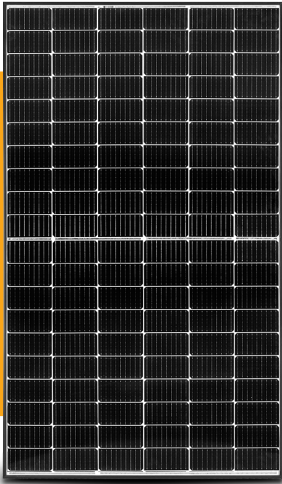

Maximum compactness

SENE.EVcharger is one of the smallest residential Electric Vehicle chargers on the market.

Maximum intelligence

Thanks to the interface with the SENE.Home storage system, from the app it is possible to activate / deactivate the SENE.EVcharger remotely and choose between Fast Charging and Solar Optimized Charging, which modulates the maximum charging current according to the photovoltaic surplus.

SENEC.Solar

- World leading product warranties
- High performance
- Maximum efficiency

Produce all the energy you need with SENECS approved range of solar panels from our world leading partners - REC Solar, Trina and Longi.

When you purchase approved SENECSolar panels along with the SENECHome and SENECEVcharger, you gain access to exclusive SENECS offers and advantages. These are only available from SENECS. Discuss with your SENECS partner today to find out the latest offers.

SENEC.Cloud

Your Solar Energy – any time you need it.

- Rely less on traditional energy suppliers
- Make your home up to 100% self-sufficient
- Consume your energy when you need it most

100% | Self-sufficiency
100% | Freedom
100% | Flexibility

SENECS.Cloud is your virtual energy savings account. Your excess self-generated solar energy will be credited to that account. You can flexibly use it any time you need it and draw down from the grid at a 1:1 ratio, up to the limit of your SENECS.Cloud package. You export and import at the same rate.

Available in NSW, VIC, SA and QLD (Energex network).

The Electrifying Lifestyle

Testimonials and Awards

**“Our power bill went from \$510 to \$70...
If you are a high consumer like our family,
SENEC just makes sense”**

Rosalie Beveridge | Western Australia

**“SENEC fit so well into our home and
doesn't take up much space. Got solar
panels? You need SENEK ASAP!”**

John Edmondson | Western Australia

**“We live in a large 4x3 and the impact our
SENEC solar battery is having on our power
bills is significant over and above what we
receive through REBS”**

Paul Duffy | Western Australia

**“My power bill went from \$700 to \$70.
WOW! Thanks to the SENEK app I know
exactly how much power is being produced
and used at all times. It really is an
amazing product!”**

Wayne Spilsbury | Western Australia

Why Choose SENEK

SENEK provides our customer with an electrifying lifestyle. Our lifestyle brand instills peace of mind and confidence.

We are driven to empower people to live with freedom. We act together in partnership and support people to be self-sufficient, green and save money, whilst living sustainably.

Established in 2009, SENEK is a pioneer and market leader. With well over 100,000+ solar battery storage units installed worldwide, we have the proven experience and capability.

We are fully committed to making a difference for our customers with the best possible experience and positive environmental impact.

High Performance A Smart Investment Demands Quality

- You get what you pay for in solar. SENEK only uses the highest quality electronic components.
- Award winning German design and engineering.
- The highest charge / discharge cycle rate in the industry at 12,000 cycles.
- High performance energy storage systems with long-term reliability.

Safety and Security Your Peace of Mind

- Bankability – SENEK is owned by the giant German energy company EnBW (€20.6B Euro). We're a diversified business with large financial backing.
- The industries best warranty – 20-years extendable. 100% better than any other company.
- SENEK certified installers – We ensure the highest quality of installation and safety.
- Australian customer service with expert in-house qualified engineers. Fast response time and resolutions.

SENEK
products
are the
smarter
choice.
